SEC. 2. FINDINGS.

The Congress finds the following:

(1) The use of tobacco products by the Nation's children is a pediatric disease of epic and worsening proportions that results in new generations of tobacco-dependent children and adults.

(2) A consensus exists within the scientific and medical communities that tobacco products are inherently dangerous and cause cancer, heart disease, and other serious adverse health effects.

(3) Nicotine is an addictive drug.

(4) Virtually all new users of tobacco products are under the minimum legal age to purchase such products.

(5) Tobacco advertising and marketing contribute significantly to the use of nicotine-containing tobacco products by adolescents.

(6) Because past efforts to restrict advertising and marketing of tobacco products have failed adequately to curb tobacco use by adolescents, comprehensive restrictions on the sale, promotion, and distribution of such products are needed.

(7) Federal and State governments have lacked the legal and regulatory authority and resources they need to address comprehensively the public health and societal problems caused by the use of tobacco products.

(8) Federal and State public health officials, the public health community, and the public at large recognize that the tobacco industry should be subject to ongoing oversight.

(9) Under Article I, Section 8 of the Constitution, the Congress is vested with the responsibility for regulating interstate commerce and commerce with Indian tribes.

(10) The sale, distribution, marketing, advertising, and use of tobacco products are activities in and substantially affecting interstate commerce. Such products are sold, marketed, advertised, and distributed in interstate commerce on a nationwide basis, and have a substantial effect on the Nation's economy.

(11) The sale, distribution, marketing, advertising, and use of such products substantially affect interstate commerce through the health care and other costs attributable to the use of tobacco products.

(12) Civil actions against tobacco product manufacturers and others are pending in Federal and State courts arising from the use, marketing, and sale of tobacco products. Among these actions are cases brought by the attorneys general of more than 40 States, certain cities and counties, and the Commonwealth of Puerto Rico, and other parties, including Indian tribes, and class actions brought by private claimants (such as in the Castano Civil Actions), seeking to recover monies expended to treat tobacco-related diseases and for the protection of minors and consumers, as well as penalties and other relief for violations of antitrust, health, consumer protection, and other laws.

(13) Civil actions have been filed throughout the United States against tobacco product manufacturers and their distributors, trade associations, law firms, and consultants on behalf of individuals or classes of individuals claiming to be dependent upon and injured by tobacco products.

(14) These civil actions are complex, time-consuming, expensive, and burdensome for both the litigants and Federal and State courts. To date, these civil actions have not resulted in sufficient redress for smokers or non-governmental third-party payers. To the extent that governmental entities have been or may in the future be compensated for tobacco-related claims they have brought, it is not now possible to identify what portions of such past or future recoveries can be attributed to their various antitrust, health, consumer protection, or other causes of action.

(15) It is in the public interest for Congress to adopt comprehensive public health legislation because of tobacco's unique position in the Nation's history and economy; the need to prevent the sale, distribution, marketing and advertising of tobacco products to persons under the minimum legal age to purchase such products; and the need to educate the public, especially young people, regarding the health effects of using tobacco products.

(16) The public interest requires a timely, fair, equitable, and consistent result that will serve the public interest by (A) providing that a portion of the costs of treatment for diseases and adverse health effects associated with the use of tobacco products is borne by the manufacturers of these products, and (B) restricting throughout the Nation the sale, distribution, marketing, and advertising of tobacco products only to persons of legal age to purchase such products.

(17) Public health authorities estimate that the benefits to the Nation of enacting Federal legislation to accomplish these goals would be significant in human and economic terms.

(18) Reducing the use of tobacco by minors by 50 percent would prevent well over 60,000 early deaths each year and save up to \$43 billion each year in reduced medical costs, improved productivity, and the avoidance of premature deaths.

(19) Advertising, marketing, and promotion of tobacco products have been especially directed to

attract young persons to use tobacco products and these efforts have resulted in increased use of such products by youth. Past efforts to oversee these activities have not been successful in adequately preventing such increased use.

(20) In 1995, the tobacco industry spent close to \$4,900,000,000 to attract new users, retain current users, increase current consumption, and generate favorable long-term attitudes toward smoking and tobacco use.

(21) Tobacco product advertising often misleadingly portrays the use of tobacco as socially acceptable and healthful to minors.

(22) Tobacco product advertising is regularly seen by persons under the age of 18, and persons under the age of 18 are regularly exposed to tobacco product promotional efforts.

(23) Through advertisements during and sponsorship of sporting events, tobacco has become strongly associated with sports and has become portrayed as an integral part of sports and the healthy lifestyle associated with rigorous sporting activity.

(24) Children are exposed to substantial and unavoidable tobacco advertising that leads to favorable beliefs about tobacco use, plays a role in leading young people to overestimate the prevalence of tobacco use, and increases the number of young people who begin to use tobacco.

(25) Tobacco advertising increases the size of the tobacco market by increasing consumption of tobacco products including increasing tobacco use by young people.

(26) Children are more influenced by tobacco advertising than adults, they smoke the most advertised brands, and children as young as 3 to 6 years old can recognize a character associated with smoking at the same rate as they recognize cartoons and fast food characters.

(27) Tobacco company documents indicate that young people are an important and often crucial segment of the tobacco market.

(28) Comprehensive advertising restrictions will have a positive effect on the smoking rates of young people.

(29) Restrictions on advertising are necessary to prevent unrestricted tobacco advertising from undermining legislation prohibiting access to young people and providing for education about tobacco use.

(30) International experience shows that advertising regulations that are stringent and comprehensive have a greater impact on overall tobacco use and young people's use than weaker or less comprehensive ones. Text-only requirements, while not as stringent as a ban, will help reduce underage use of tobacco products while preserving the informational function of advertising.

(31) It is in the public interest for Congress to adopt legislation to address the public health crisis created by actions of the tobacco industry.

(32) If, as a direct or indirect result of this Act, the consumption of tobacco products in the United States is reduced significantly, then tobacco farmers, their families, and their communities may suffer economic hardship and displacement, notwithstanding their lack of involvement in the manufacturing and marketing of tobacco products.

SEC. 3. PURPOSE.

The purposes of this Act are_

(1) to confirm the authority of the Food and Drug Administration to regulate tobacco products under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), by recognizing it as the primary Federal regulatory authority with respect to the manufacture, marketing, and distribution of tobacco products;

(2) to require the tobacco industry to fund both Federal and State oversight of the tobacco industry from on-going payments by tobacco product manufacturers;

(3) to require tobacco product manufacturers to provide ongoing funding to be used for an aggressive Federal, State, and local enforcement program and for a nationwide retail licensing system to prevent minors from obtaining tobacco products, while expressly permitting the States to adopt additional measures that further restrict or eliminate the products' use;

(4) to ensure that the Food and Drug Administration and the States may continue to address issues of particular concern to public health officials, especially the use of tobacco by young people and dependence on tobacco;

(5) to impose severe financial surcharges on tobacco product manufacturers if they do not substantially reduce tobacco use by young people during the next decade;

(6) to authorize appropriate agencies of the Federal government to set national standards controlling the manufacture of tobacco products and the identity, public disclosure, and amount of ingredients used in such products;

(7) to provide new and flexible enforcement authority to ensure that the tobacco industry makes efforts to develop and introduce less harmful tobacco products;

(8) to confirm the Food and Drug Administration's authority to regulate the levels of tar, nicotine, and other harmful components of tobacco products;

(9) in order to ensure that adults are better informed, to require tobacco product manufacturers to disclose all research which has not previously been made available, as well as research generated in the future, relating to the health and dependency effects or safety of tobacco

products;

(10) to impose on tobacco product manufacturers the obligation to provide funding for a variety of public health initiatives;

(11) to establish a minimum Federal standard for stringent restrictions on smoking in public places, with funding to enforce such standard derived from payments made by tobacco product manufacturers, while also to permit State, Tribal, and local governments to enact additional and more stringent standards or elect not to be covered by the Federal standard;

(12) to authorize and fund from payments by tobacco product manufacturers a continuing national counter-advertising and tobacco control campaign which seeks to educate consumers and discourage children and adolescents from beginning to use tobacco products, and which encourages current users of tobacco products to discontinue using such products;

(13) to establish a mechanism to compensate the States in settlement of their various claims against tobacco product manufacturers;

(14) to authorize and to fund from payments by tobacco product manufacturers a nationwide program of smoking cessation administered through State and Tribal governments and the private sector;

(15) to establish and fund from payments by tobacco product manufacturers a National Tobacco Settlement Fund;

(16) to affirm the rights of individuals to access to the courts, to civil trial by jury, and to damages to compensate them for harm caused by tobacco products;

(17) to continue to permit the sale of tobacco products to adults in conjunction with measures to ensure that they are not sold or accessible to underage purchasers;

(18) to impose appropriate regulatory controls on the tobacco industry; and

(19) to protect tobacco farmers and their communities from the economic impact of this Act by providing full funding for and the continuation of the Federal tobacco program and by providing funds for farmers and communities to develop new opportunities in tobacco-dependent communities.

SEC. 4. SCOPE AND EFFECT.

(a) Intended Effect._ This Act is not intended to_

(1) establish a precedent with regard to any other industry, situation, circumstance, or legal action;

(2) express any position of the Congress with regard to the imposition of punitive damages in general or as applied to any specific industry, case, controversy, or product other than as provided in this Act;

(3) provide any authority regarding the imposition of, or the appropriateness of imposing, punitive damages; or

(4) except as provided in this Act, affect any action pending in State, Tribal, or Federal court, or any agreement, consent decree, or contract of any kind.

(b) **Taxation.**_ Notwithstanding any other provision of law, this Act and the amendments made by this Act shall not affect any authority of the Secretary of the Treasury (including any authority assigned to the Bureau of Alcohol, Tobacco and Firearms) or of State or local governments with regard to taxation for tobacco or tobacco products.

(c) **Agricultural Activities.**_ The provisions of this Act which authorize the Secretary to take certain actions with regard to tobacco and tobacco products shall not be construed to affect any authority of the Secretary of Agriculture under existing law regarding the growing, cultivation, or curing of raw tobacco.

(a) **Age Restrictions.**_ Nothing in this Act or the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), as amended by this Act, shall prevent a Federal agency (including the Armed Forces), a State or its political subdivisions, or the government of an Indian tribe from adopting and enforcing additional measures that further restrict or prohibit tobacco product sale to, use by, and accessibility to persons under the legal age of purchase established by such agency, State, subdivision, or government of an Indian tribe.

(b) **Additional Measures.**_ Except as otherwise expressly provided in this Act, nothing in this Act, the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), or rules promulgated under such Acts, shall limit the authority of a Federal agency (including the Armed Forces), a State or its political subdivisions, or the government of an Indian tribe to enact, adopt, promulgate, and enforce any law, rule, regulation, or other measure with respect to tobacco products, including laws, rules, regulations, or other measures relating to or prohibiting the sale, distribution, possession, exposure to, or use of tobacco products by persons of any age that are in addition to the provisions of this Act and the amendments made by this Act. No provision of this Act or amendment made by this Act shall limit or otherwise affect any State, Tribal, or local taxation of tobacco products.

(c) **State Law Not Affected.**_ Except as otherwise expressly provided in this Act, nothing in this Act, the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), or rules promulgated under such Acts, shall supersede the authority of the States, pursuant to State law, to expend funds provided by this Act.

``SEC. 906. GENERAL PROVISIONS RESPECTING CONTROL OF TOBACCO PRODUCTS.

``(a) In General._ Any requirement established by or under section 902, 903, 905, or 909 applicable to a tobacco product shall apply to such tobacco product until the applicability of the requirement to the tobacco product has been changed by action taken under section 907, section 910, or subsection (d) of this section, and any requirement established by or under section 902, 903, 905, or 909 which is inconsistent with a requirement imposed on such tobacco product under section 907, section 910, or subsection (d) of this section shall not apply to such tobacco product.

``(b) Information on Public Access and Comment._ Each notice of proposed rulemaking under section 907, 908, 909, or 910, or under this section, any other notice which is published in the Federal Register with respect to any other action taken under any such section and which states the reasons for such action, and each publication of findings required to be made in connection with rulemaking under any such section shall set forth_

``(1) the manner in which interested persons may examine data and other information on which the notice or findings is based; and

``(c) Limited Confidentiality of Information._ Any information reported to or otherwise obtained by the Secretary or the Secretary's representative under section 904, 907, 908, 909, or 910 or 704, or under subsection (e) or (f) of this section, which is exempt from disclosure under subsection (a) of section 552 of title 5, United States Code, by reason of subsection (b)(4) of that section shall be considered confidential and shall not be disclosed, except that the information may be disclosed to other officers or employees concerned with carrying out this chapter, or when relevant in any proceeding under this chapter.

``(d) Restrictions._

``(1) The Secretary may by regulation require that a tobacco product be restricted to sale, distribution, or use upon such conditions, including restrictions on the access to, and the advertising and promotion of, the tobacco product, as the Secretary may prescribe in such regulation if, because of its potentiality for harmful effect or the collateral measures necessary to its use, the Secretary determines that such regulation would be appropriate for the protection of the public health. The finding as to whether such regulation would be appropriate for the protection of the public health shall be determined with respect to the risks and benefits to the population as a whole, including users and non-users of the tobacco product, and taking into account_

``(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

“(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

No such condition may require that the sale or distribution of a tobacco product be limited to the written or oral authorization of a practitioner licensed by law to prescribe medical products.

“(2) The label of a tobacco product shall bear such appropriate statements of the restrictions required by a regulation under subsection (a) as the Secretary may in such regulation prescribe.

“(3) Because of the importance of any decision by the Secretary to restrict the sale of any class of tobacco products on the market on the date of enactment of the National Tobacco Policy and Youth Smoking Reduction Act to specified categories of retail outlets, it is appropriate for the Congress to have the opportunity to review such a decision. Therefore, any such restriction may not take effect before the date that is 2 years after the President notifies the Congress that a final regulation imposing the restriction has been issued.

“(e) Good Manufacturing Practice Requirements._

“(1) Methods, facilities, and controls to conform._

“(A) The Secretary may, in accordance with subparagraph (B), prescribe regulations requiring that the methods used in, and the facilities and controls used for, the manufacture, pre-production design validation (including a process to assess the performance of a tobacco product), packing and storage of a tobacco product, conform to current good manufacturing practice, as prescribed in such regulations, to assure that the public health is protected and that the tobacco product is in compliance with this chapter.

“(B) The Secretary shall_

“(i) before promulgating any regulation under subparagraph (A), afford the Tobacco Products Scientific Advisory Committee established under section 915 an opportunity to submit recommendations with respect to the regulation proposed to be promulgated;

“(ii) before promulgating any regulation under subparagraph (A), afford opportunity for an oral hearing;

“(iii) provide the advisory committee a reasonable time to make its recommendation with respect to proposed regulations under subparagraph (A); and

“(iv) in establishing the effective date of a regulation promulgated under this subsection, take into account the differences in the manner in which the different types of tobacco products have historically been produced, the financial resources of the different tobacco product manufacturers, and the state of their existing manufacturing facilities; and shall provide for a reasonable period of time for such manufacturers to conform to good manufacturing practices.

“(2) Exemptions; variances._

“(A) Any person subject to any requirement prescribed under paragraph (1) may petition the Secretary for a permanent or temporary exemption or variance from such requirement. Such a petition shall be submitted to the Secretary in such form and manner as the Secretary shall prescribe and shall_

“(i) in the case of a petition for an exemption from a requirement, set forth the basis for the petitioner's determination that compliance with the requirement is not required to assure that the tobacco product will be in compliance with this chapter;

“(ii) in the case of a petition for a variance from a requirement, set forth the methods proposed to be used in, and the facilities and controls proposed to be used for, the manufacture, packing, and storage of the tobacco product in lieu of the methods, facilities, and controls prescribed by the requirement; and

“(iii) contain such other information as the Secretary shall prescribe.

“(B) The Secretary may refer to the Tobacco Products Scientific Advisory Committee established under section 915 any petition submitted under subparagraph (A). The advisory committee shall report its recommendations to the Secretary with respect to a petition referred to it within 60 days after the date of the petition's referral. Within 60 days after_

“(i) the date the petition was submitted to the Secretary under subparagraph (A); or

“(ii) the day after the petition was referred to an advisory committee,

whichever occurs later, the Secretary shall by order either deny the petition or approve it.

“(C) The Secretary may approve_

“(i) a petition for an exemption for a tobacco product from a requirement if the Secretary determines that compliance with such requirement is not required to assure that the tobacco product will be in compliance with this chapter; and

“(ii) a petition for a variance for a tobacco product from a requirement if the Secretary determines that the methods to be used in, and the facilities and controls to be used for, the manufacture, packing, and storage of the tobacco product in lieu of the methods, controls, and facilities prescribed by the requirement are sufficient to assure that the tobacco product will be in compliance with this chapter.

“(D) An order of the Secretary approving a petition for a variance shall prescribe such conditions respecting the methods used in, and the facilities and controls used for, the manufacture, packing, and storage of the tobacco product to be granted the variance under the petition as may be necessary to assure that the tobacco product will be in compliance with this chapter.

“(E) After the issuance of an order under subparagraph (B) respecting a petition, the petitioner shall have an opportunity for an informal hearing on such order.

“(3) Compliance with requirements under this subsection shall not be required before the period ending 3 years after the date of enactment of the National Tobacco Policy and Youth Smoking Reduction Act.

“(f) Exemption for Investigational Use._ The Secretary may exempt tobacco products intended for investigational use from this chapter under such conditions as the Secretary may prescribe by regulation .

“(g) Research and Development._ The Secretary may enter into contracts for research, testing, and demonstrations respecting tobacco products and may obtain tobacco products for research, testing, and demonstration purposes without regard to section 3324(a) and (b) of title 31, United States Code, and section 5 of title 41, United States Code.

“SEC. 907. PERFORMANCE STANDARDS.

“(a) In General._

“(1) Finding required._ The Secretary may adopt performance standards for a tobacco product if the Secretary finds that a performance standard is appropriate for the protection of the public health. This finding shall be determined with respect to the risks and benefits to the population as a whole, including users and non-users of the tobacco product, and taking into account_

“(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

“(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

“(2) Content of performance standards._ A performance standard established under this section for a tobacco product_

“(A) shall include provisions to provide performance that is appropriate for the protection of the public health, including provisions, where appropriate_

“(i) for the reduction or elimination of nicotine yields of the product;

“(ii) for the reduction or elimination of other constituents or harmful components of the product;
or

“(iii) relating to any other requirement under (B);

“(B) shall, where necessary to be appropriate for the protection of the public health, include_

“(i) provisions respecting the construction, components, ingredients, and properties of the tobacco product;

“(ii) provisions for the testing (on a sample basis or, if necessary, on an individual basis) of the tobacco product;

“(iii) provisions for the measurement of the performance characteristics of the tobacco product;

“(iv) provisions requiring that the results of each or of certain of the tests of the tobacco product required to be made under clause (ii) show that the tobacco product is in conformity with the portions of the standard for which the test or tests were required; and

“(v) a provision requiring that the sale and distribution of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d); and

“(C) shall, where appropriate, require the use and prescribe the form and content of labeling for the proper use of the tobacco product.

“(3) Periodic re-evaluation of performance standards._ The Secretary shall provide for periodic evaluation of performance standards established under this section to determine whether such standards should be changed to reflect new medical, scientific, or other technological data. The Secretary may provide for testing under paragraph (2) by any person.

“(4) Involvement of other agencies; informed persons._ In carrying out duties under this section, the Secretary shall, to the maximum extent practicable_

“(A) use personnel, facilities, and other technical support available in other Federal agencies;

“(B) consult with other Federal agencies concerned with standard-setting and other nationally or internationally recognized standard-setting entities; and

“(C) invite appropriate participation, through joint or other conferences, workshops, or other means, by informed persons representative of scientific, professional, industry, or consumer organizations who in the Secretary's judgment can make a significant contribution.

“(b) Establishment of Standards._

“(1) Notice._

(A) The Secretary shall publish in the Federal Register a notice of proposed rulemaking for the establishment, amendment, or revocation of any performance standard for a tobacco product.

“(B) A notice of proposed rulemaking for the establishment or amendment of a performance standard for a tobacco product shall_

“(i) set forth a finding with supporting justification that the performance standard is appropriate for the protection of the public health;

“(ii) set forth proposed findings with respect to the risk of illness or injury that the performance standard is intended to reduce or eliminate; and

“(iii) invite interested persons to submit an existing performance standard for the tobacco product, including a draft or proposed performance standard, for consideration by the Secretary.

“(C) A notice of proposed rulemaking for the revocation of a performance standard shall set forth a finding with supporting justification that the performance standard is no longer necessary to be appropriate for the protection of the public health.

“(D) The Secretary shall consider all information submitted in connection with a proposed standard, including information concerning the countervailing effects of the performance standard on the health of adolescent tobacco users, adult tobacco users, or non-tobacco users, such as the creation of a significant demand for contraband or other tobacco products that do not meet the requirements of this chapter and the significance of such demand, and shall issue the standard if the Secretary determines that the standard would be appropriate for the protection of the public health.

“(E) The Secretary shall provide for a comment period of not less than 60 days.

“(2) Promulgation._

“(A) After the expiration of the period for comment on a notice of proposed rulemaking published under paragraph (1) respecting a performance standard and after consideration of such comments and any report from the Tobacco Products Scientific Advisory Committee under section 915, the Secretary shall_

“(i) promulgate a regulation establishing a performance standard and publish in the Federal Register findings on the matters referred to in paragraph (1); or

“(ii) publish a notice terminating the proceeding for the development of the standard together with the reasons for such termination.

“(B) A regulation establishing a performance standard shall set forth the date or dates upon which the standard shall take effect, but no such regulation may take effect before one year after the date of its publication unless the Secretary determines that an earlier effective date is necessary for the protection of the public health. Such date or dates shall be established so as to minimize, consistent with the public health, economic loss to, and disruption or dislocation of, domestic and international trade.

“(3) Special rule for standard banning class of product or eliminating nicotine content._ Because of the importance of a decision of the Secretary to issue a regulation establishing a performance

standard_

“(A) eliminating all cigarettes, all smokeless tobacco products, or any similar class of tobacco products, or

“(B) requiring the reduction of nicotine yields of a tobacco product to zero,

it is appropriate for the Congress to have the opportunity to review such a decision. Therefore, any such standard may not take effect before a date that is 2 years after the President notifies the Congress that a final regulation imposing the restriction has been issued.

“(4) Amendment; revocation._

“(A) The Secretary, upon the Secretary's own initiative or upon petition of an interested person may by a regulation, promulgated in accordance with the requirements of paragraphs (1) and (2)(B) of this subsection, amend or revoke a performance standard.

“(B) The Secretary may declare a proposed amendment of a performance standard to be effective on and after its publication in the Federal Register and until the effective date of any final action taken on such amendment if the Secretary determines that making it so effective is in the public interest.

“(5) Reference to Advisory Committee._ The Secretary_

“(A) may, on the Secretary's own initiative, refer a proposed regulation for the establishment, amendment, or revocation of a performance standard; or

“(B) shall, upon the request of an interested person which demonstrates good cause for referral and which is made before the expiration of the period for submission of comments on such proposed regulation,

refer such proposed regulation to the Tobacco Products Scientific Advisory Committee established under section 915, for a report and recommendation with respect to any matter involved in the proposed regulation which requires the exercise of scientific judgment. If a proposed regulation is referred under this subparagraph to the advisory committee, the Secretary shall provide the advisory committee with the data and information on which such proposed regulation is based. The advisory committee shall, within 60 days after the referral of a proposed regulation and after independent study of the data and information furnished to it by the Secretary and other data and information before it, submit to the Secretary a report and recommendation respecting such regulation, together with all underlying data and information and a statement of the reason or basis for the recommendation. A copy of such report and recommendation shall be made public by the Secretary.

“SEC. 908. NOTIFICATION AND OTHER REMEDIES

“(a) Notification._ If the Secretary determines that_

“(1) a tobacco product which is introduced or delivered for introduction into interstate commerce for commercial distribution presents an unreasonable risk of substantial harm to the public health; and

“(2) notification under this subsection is necessary to eliminate the unreasonable risk of such harm and no more practicable means is available under the provisions of this chapter (other than this section) to eliminate such risk,

the Secretary may issue such order as may be necessary to assure that adequate notification is provided in an appropriate form, by the persons and means best suited under the circumstances involved, to all persons who should properly receive such notification in order to eliminate such risk. The Secretary may order notification by any appropriate means, including public service announcements. Before issuing an order under this subsection, the Secretary shall consult with the persons who are to give notice under the order.

“(b) No Exemption from Other Liability._ Compliance with an order issued under this section shall not relieve any person from liability under Federal or State law. In awarding damages for economic loss in an action brought for the enforcement of any such liability, the value to the plaintiff in such action of any remedy provided under such order shall be taken into account.

“(c) Recall Authority._

“(1) In general._ If the Secretary finds that there is a reasonable probability that a tobacco product contains a manufacturing or other defect not ordinarily contained in tobacco products on the market that would cause serious, adverse health consequences or death, the Secretary shall issue an order requiring the appropriate person (including the manufacturers, importers, distributors, or retailers of the tobacco product) to immediately cease distribution of such tobacco product. The order shall provide the person subject to the order with an opportunity for an informal hearing, to be held not later than 10 days after the date of the issuance of the order, on the actions required by the order and on whether the order should be amended to require a recall of such tobacco product. If, after providing an opportunity for such a hearing, the Secretary determines that inadequate grounds exist to support the actions required by the order, the Secretary shall vacate the order.

“(2) Amendment of order to require recall._

“(A) If, after providing an opportunity for an informal hearing under paragraph (1), the Secretary determines that the order should be amended to include a recall of the tobacco product with respect to which the order was issued, the Secretary shall, except as provided in subparagraph (B), amend the order to require a recall. The Secretary shall specify a timetable in which the tobacco product recall will occur and shall require periodic reports to the Secretary describing the progress of the recall.

“(B) An amended order under subparagraph (A)_

“(i) shall not include recall of a tobacco product from individuals; and

“(ii) shall provide for notice to persons subject to the risks associated with the use of such tobacco product.

In providing the notice required by clause (ii), the Secretary may use the assistance of retailers and other persons who distributed such tobacco product. If a significant number of such persons cannot be identified, the Secretary shall notify such persons under section 705(b).

“(3) Remedy not exclusive._ The remedy provided by this subsection shall be in addition to remedies provided by subsection (a) of this section.

“SEC. 909. RECORDS AND REPORTS ON TOBACCO PRODUCTS.

“(a) In General._ Every person who is a tobacco product manufacturer or importer of a tobacco product shall establish and maintain such records, make such reports, and provide such information, as the Secretary may by regulation reasonably require to assure that such tobacco product is not adulterated or misbranded and to otherwise protect public health. Regulations prescribed under the preceding sentence_

“(1) may require a tobacco product manufacturer or importer to report to the Secretary whenever the manufacturer or importer receives or otherwise becomes aware of information that reasonably suggests that one of its marketed tobacco products may have caused or contributed to a serious unexpected adverse experience associated with the use of the product or any significant increase in the frequency of a serious, expected adverse product experience;

“(2) shall require reporting of other significant adverse tobacco product experiences as determined by the Secretary to be necessary to be reported;

“(3) shall not impose requirements unduly burdensome to a tobacco product manufacturer or importer, taking into account the cost of complying with such requirements and the need for the protection of the public health and the implementation of this chapter;

“(4) when prescribing the procedure for making requests for reports or information, shall require that each request made under such regulations for submission of a report or information to the Secretary state the reason or purpose for such request and identify to the fullest extent practicable such report or information;

“(5) when requiring submission of a report or information to the Secretary, shall state the reason or purpose for the submission of such report or information and identify to the fullest extent practicable such report or information; and

“(6) may not require that the identity of any patient or user be disclosed in records, reports, or information required under this subsection unless required for the medical welfare of an individual, to determine risks to public health of a tobacco product, or to verify a record, report, or information submitted under this chapter.

In prescribing regulations under this subsection, the Secretary shall have due regard for the professional ethics of the medical profession and the interests of patients. The prohibitions of paragraph (6) of this subsection continue to apply to records, reports, and information concerning any individual who has been a patient, irrespective of whether or when he ceases to be a patient.

“(b) Reports of Removals and Corrections._

(1) Except as provided in paragraph (3), the Secretary shall by regulation require a tobacco product manufacturer or importer of a tobacco product to report promptly to the Secretary any corrective action taken or removal from the market of a tobacco product undertaken by such manufacturer or importer if the removal or correction was undertaken_

“(A) to reduce a risk to health posed by the tobacco product; or

“(B) to remedy a violation of this chapter caused by the tobacco product which may present a risk to health.

A tobacco product manufacturer or importer of a tobacco product who undertakes a corrective action or removal from the market of a tobacco product which is not required to be reported under this subsection shall keep a record of such correction or removal.

“(2) No report of the corrective action or removal of a tobacco product may be required under paragraph (1) if a report of the corrective action or removal is required and has been submitted under subsection (a) of this section.

“SEC. 910. PREMARKET REVIEW OF CERTAIN TOBACCO PRODUCTS.

“(a) In General._

“(1) Premarket approval required._

“(A) New products._ Approval under this section of an application for premarket approval for any tobacco product that is not commercially marketed (other than for test marketing) in the United States as of August 11, 1995, is required unless the manufacturer has submitted a report under section 905(j), and the Secretary has issued an order that the tobacco product is substantially equivalent to a tobacco product commercially marketed (other than for test marketing) in the United States as of August 11, 1995, that is in compliance with the requirements of this Act.

“(B) Products introduced between August 11, 1995, and enactment of this chapter._ Subparagraph (A) does not apply to a tobacco product that_

“(i) was first introduced or delivered for introduction into interstate commerce for commerce for commercial distribution in the United States after August 11, 1995, and before the date of enactment of the National Tobacco Policy and Youth Smoking Reduction Act; and

“(ii) for which a report was submitted under section 905(j) within 6 months after such date, until the Secretary issues an order that the tobacco product is substantially equivalent for purposes of this section or requires premarket approval.

“(2) Substantially equivalent defined._

“(A) For purposes of this section and section 905(j), the term ‘substantially equivalent’ or ‘substantial equivalence’ mean, with respect to the tobacco product being compared to the predicate tobacco product, that the Secretary by order has found that the tobacco product_

“(i) has the same characteristics as the predicate tobacco product; or

“(ii) has different characteristics and the information submitted contains information, including clinical data if deemed necessary by the Secretary, that demonstrates that it is not appropriate to regulate the product under this section because the product does not raise different questions of public health.

“(B) For purposes of subparagraph (A), the term ‘characteristics’ means the materials, ingredients, design, composition, heating source, or other features of a tobacco product.

“(C) A tobacco product may not be found to be substantially equivalent to a predicate tobacco product that has been removed from the market at the initiative of the Secretary or that has been determined by a judicial order to be misbranded or adulterated.

“(3) Health Information._

“(A) As part of a submission under section 905(j) respecting a tobacco product, the person required to file a premarket notification under such section shall provide an adequate summary of any health information related to the tobacco product or state that such information will be made available upon request by any person.

“(B) Any summary under subparagraph (A) respecting a tobacco product shall contain detailed information regarding data concerning adverse health effects and shall be made available to the public by the Secretary within 30 days of the issuance of a determination that such tobacco product is substantially equivalent to another tobacco product.

“(b) Application._

“(1) Contents._ An application for premarket approval shall contain_

“(A) full reports of all information, published or known to or which should reasonably be known to the applicant, concerning investigations which have been made to show the health risks of such tobacco product and whether such tobacco product presents less risk than other tobacco products;

“(B) a full statement of the components, ingredients, and properties, and of the principle or principles of operation, of such tobacco product;

“(C) a full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and, when relevant, packing and installation of, such tobacco product;

“(D) an identifying reference to any performance standard under section 907 which would be applicable to any aspect of such tobacco product, and either adequate information to show that such aspect of such tobacco product fully meets such performance standard or adequate information to justify any deviation from such standard;

“(E) such samples of such tobacco product and of components thereof as the Secretary may reasonably require;

“(F) specimens of the labeling proposed to be used for such tobacco product; and

“(G) such other information relevant to the subject matter of the application as the Secretary may require.

“(2) Reference to Advisory Committee._ Upon receipt of an application meeting the requirements set forth in paragraph (1), the Secretary_

“(A) may, on the Secretary's own initiative; or

“(B) shall, upon the request of an applicant,

refer such application to the Tobacco Products Scientific Advisory Committee established under section 915 and for submission (within such period as the Secretary may establish) of a report and recommendation respecting approval of the application, together with all underlying data and the reasons or basis for the recommendation.

“(c) Action on Application._

“(1) Deadline._

“(A) As promptly as possible, but in no event later than 180 days after the receipt of an application under subsection (b) of this section, the Secretary, after considering the report and recommendation submitted under paragraph (2) of such subsection, shall_

“(i) issue an order approving the application if the Secretary finds that none of the grounds for denying approval specified in paragraph (2) of this subsection applies; or

“(ii) deny approval of the application if the Secretary finds (and sets forth the basis for such finding as part of or accompanying such denial) that one or more grounds for denial specified in paragraph (2) of this subsection apply.

“(B) An order approving an application for a tobacco product may require as a condition to such approval that the sale and distribution of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d).

“(2) Denial of approval._ The Secretary shall deny approval of an application for a tobacco product if, upon the basis of the information submitted to the Secretary as part of the application and any other information before the Secretary with respect to such tobacco product, the Secretary finds that_

“(A) there is a lack of a showing that permitting such tobacco product to be marketed would be appropriate for the protection of the public health;

“(B) the methods used in, or the facilities or controls used for, the manufacture, processing, or packing of such tobacco product do not conform to the requirements of section 906(e);

“(C) based on a fair evaluation of all material facts, the proposed labeling is false or misleading in any particular; or

“(D) such tobacco product is not shown to conform in all respects to a performance standard in effect under section 907, compliance with which is a condition to approval of the application, and there is a lack of adequate information to justify the deviation from such standard.

“(3) Denial Information._ Any denial of an application shall, insofar as the Secretary determines to be practicable, be accompanied by a statement informing the applicant of the measures required to place such application in approvable form (which measures may include further research by the applicant in accordance with one or more protocols prescribed by the Secretary).

“(4) Basis for finding._ For purposes of this section, the finding as to whether approval of a tobacco product is appropriate for the protection of the public health shall be determined with respect to the risks and benefits to the population as a whole, including users and non-users of the tobacco product, and taking into account_

“(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

“(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

“(5) Basis for action._

“(A) For purposes of paragraph (2)(A), whether permitting a tobacco product to be marketed would be appropriate for the protection of the public health shall, when appropriate, be determined on the basis of well-controlled investigations, which may include one or more clinical investigations by experts qualified by training and experience to evaluate the tobacco product.

“(B) If the Secretary determines that there exists valid scientific evidence (other than evidence derived from investigations described in subparagraph (A)) which is sufficient to evaluate the tobacco product the Secretary may authorize that the determination for purposes of paragraph (2)(A) be made on the basis of such evidence.

“(d) Withdrawal and Temporary Suspension._

“(1) In general._ The Secretary shall, upon obtaining, where appropriate, advice on scientific matters from the Tobacco Products Scientific Advisory Committee established under section 915, and after due notice and opportunity for informal hearing to the holder of an approved application for a tobacco product, issue an order withdrawing approval of the application if the Secretary finds_

“(A) that the continued marketing of such tobacco product no longer is appropriate for the protection of the public health;

“(B) that the application contained or was accompanied by an untrue statement of a material fact;

“(C) that the applicant_

“(i) has failed to establish a system for maintaining records, or has repeatedly or deliberately failed to maintain records or to make reports, required by an applicable regulation under section 909;

“(ii) has refused to permit access to, or copying or verification of, such records as required by section 704; or

“(iii) has not complied with the requirements of section 905;

“(D) on the basis of new information before the Secretary with respect to such tobacco product, evaluated together with the evidence before the Secretary when the application was approved, that the methods used in, or the facilities and controls used for, the manufacture, processing, packing, or installation of such tobacco product do not conform with the requirements of section 906(e) and were not brought into conformity with such requirements within a reasonable time after receipt of written notice from the Secretary of nonconformity;

“(E) on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, that the labeling of such tobacco product, based on a fair evaluation of all material facts, is false or misleading in any particular and was not corrected within a reasonable time after receipt of written notice from the Secretary of such fact; or

“(F) on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, that such tobacco product is not shown

to conform in all respects to a performance standard which is in effect under section 907, compliance with which was a condition to approval of the application, and that there is a lack of adequate information to justify the deviation from such standard.

“(2) Appeal._ The holder of an application subject to an order issued under paragraph (1) withdrawing approval of the application may, by petition filed on or before the thirtieth day after the date upon which he receives notice of such withdrawal, obtain review thereof in accordance with subsection (e) of this section.

“(3) Temporary suspension._ If, after providing an opportunity for an informal hearing, the Secretary determines there is reasonable probability that the continuation of distribution of a tobacco product under an approved application would cause serious, adverse health consequences or death, that is greater than ordinarily caused by tobacco products on the market, the Secretary shall by order temporarily suspend the approval of the application approved under this section. If the Secretary issues such an order, the Secretary shall proceed expeditiously under paragraph (1) to withdraw such application.

“(e) Service of Order._ An order issued by the Secretary under this section shall be served_

“(1) in person by any officer or employee of the department designated by the Secretary; or

“(2) by mailing the order by registered mail or certified mail addressed to the applicant at the applicant's last known address in the records of the Secretary.

“SEC. 911. JUDICIAL REVIEW.

“(a) In General._ Not later than 30 days after_

“(1) the promulgation of a regulation under section 907 establishing, amending, or revoking a performance standard for a tobacco product; or

“(2) a denial of an application for approval under section 910(c),

any person adversely affected by such regulation or order may file a petition with the United States Court of Appeals for the District of Columbia or for the circuit wherein such person resides or has his principal place of business for judicial review of such regulation or order. A copy of the petition shall be transmitted by the clerk of the court to the Secretary or other officer designated by the Secretary for that purpose. The Secretary shall file in the court the record of the proceedings on which the Secretary based the Secretary's regulation or order and each record or order shall contain a statement of the reasons for its issuance and the basis, on the record, for its issuance. For purposes of this section, the term `record' means all notices and other matter published in the Federal Register with respect to the regulation or order reviewed, all information submitted to the Secretary with respect to such regulation or order, proceedings of any panel or advisory committee with respect to such regulation or order, any hearing held with respect to such regulation or order, and any other information identified by the Secretary, in the administrative proceeding held with respect to such regulation or order, as being relevant to such

regulation or order.

“(b) Court May Order Secretary to Make Additional Findings._ If the petitioner applies to the court for leave to adduce additional data, views, or arguments respecting the regulation or order being reviewed and shows to the satisfaction of the court that such additional data, views, or arguments are material and that there were reasonable grounds for the petitioner's failure to adduce such data, views, or arguments in the proceedings before the Secretary, the court may order the Secretary to provide additional opportunity for the oral presentation of data, views, or arguments and for written submissions. The Secretary may modify the Secretary's findings, or make new findings by reason of the additional data, views, or arguments so taken and shall file with the court such modified or new findings, and the Secretary's recommendation, if any, for the modification or setting aside of the regulation or order being reviewed, with the return of such additional data, views, or arguments.

“(c) Standard of Review._ Upon the filing of the petition under subsection (a) of this section for judicial review of a regulation or order, the court shall have jurisdiction to review the regulation or order in accordance with chapter 7 of title 5, United States Code, and to grant appropriate relief, including interim relief, as provided in such chapter. A regulation or order described in paragraph (1) or (2) of subsection (a) of this section shall not be affirmed if it is found to be unsupported by substantial evidence on the record taken as a whole.

“(d) Finality of Judgment._ The judgment of the court affirming or setting aside, in whole or in part, any regulation or order shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification, as provided in section 1254 of title 28, United States Code.

“(e) Other Remedies._ The remedies provided for in this section shall be in addition to and not in lieu of any other remedies provided by law.

“(f) Regulations and Orders Must Recite Basis in Record._ To facilitate judicial review under this section or under any other provision of law of a regulation or order issued under section 906, 907, 908, 909, 910, or 914, each such regulation or order shall contain a statement of the reasons for its issuance and the basis, in the record of the proceedings held in connection with its issuance, for its issuance.

“SEC. 912. POSTMARKET SURVEILLANCE

“(a) Discretionary Surveillance._ The Secretary may require a tobacco product manufacturer to conduct postmarket surveillance for a tobacco product of the manufacturer if the Secretary determines that postmarket surveillance of the tobacco product is necessary to protect the public health or is necessary to provide information regarding the health risks and other safety issues involving the tobacco product.

“(b) Surveillance Approval._ Each tobacco product manufacturer required to conduct a surveillance of a tobacco product under subsection (a) of this section shall, within 30 days after receiving notice that the manufacturer is required to conduct such surveillance, submit, for the approval of the Secretary, a protocol for the required surveillance. The Secretary, within 60 days

of the receipt of such protocol, shall determine if the principal investigator proposed to be used in the surveillance has sufficient qualifications and experience to conduct such surveillance and if such protocol will result in collection of useful data or other information necessary to protect the public health. The Secretary may not approve such a protocol until it has been reviewed by an appropriately qualified scientific and technical review committee established by the Secretary.

``SEC. 913. REDUCED RISK TOBACCO PRODUCTS.

``(1) In general . _For purposes of this section, the term `reduced risk tobacco product' means a tobacco product designated by the Secretary under paragraph (2).

``(2) Designation . _

``(A) In general. _ A product may be designated by the Secretary as a reduced risk tobacco product if the Secretary finds that the product will significantly reduce harm to individuals caused by a tobacco product and is otherwise appropriate to protect public health, based on an application submitted by the manufacturer of the product (or other responsible person) that _

``(i) demonstrates through testing on animals and short-term human testing that use of such product results in ingestion or inhalation of a substantially lower yield of toxic substances than use of conventional tobacco products in the same category as the proposed reduced risk product; and

``(ii) if required by the Secretary, includes studies of the long-term health effects of the product.

If such studies are required, the manufacturer may consult with the Secretary regarding protocols for conducting the studies.

``(B) Basis for finding. _ In making the finding under subparagraph (A), the Secretary shall take into account _

``(i) the risks and benefits to the population as a whole, including both users of tobacco products and non-users of tobacco products;

``(ii) the increased or decreased likelihood that existing users of tobacco products will stop using such products including reduced risk tobacco products;

``(iii) the increased or decreased likelihood that those who do not use tobacco products will start to use such products, including reduced risk tobacco products; and

``(iii) the risks and benefits to consumers from the use of a reduced risk tobacco product as compared to the use of products approved under chapter V to reduce exposure to tobacco.

``(3) Marketing requirements . _A tobacco product may be marketed and labeled as a reduced risk tobacco product if it _

((A) has been designated as a reduced risk tobacco product by the Secretary under paragraph (2);

((B) bears a label prescribed by the Secretary concerning the product's contribution to reducing harm to health; and

((C) complies with requirements prescribed by the Secretary relating to marketing and advertising of the product, and other provisions of this chapter as prescribed by the Secretary.

((b) Revocation of Designation . _At any time after the date on which a tobacco product is designated as a reduced risk tobacco product under this section the Secretary may, after providing an opportunity for an informal hearing, revoke such designation if the Secretary determines, based on information not available at the time of the designation, that_

((1) the finding made under subsection (a)(2) is no longer valid; or

((2) the product is being marketed in violation of subsection (a)(3).

((c) Limitation . _A tobacco product that is designated as a reduced risk tobacco product that is in compliance with subsection (a) shall not be regulated as a drug or device.

((d) Development of reduced risk tobacco product Technology . _A tobacco product manufacturer shall provide written notice to the Secretary upon the development or acquisition by the manufacturer of any technology that would reduce the risk of a tobacco product to the health of the user for which the manufacturer is not seeking designation as a 'reduced risk tobacco product' under subsection (a).

((SEC. 914. PRESERVATION OF STATE AND LOCAL AUTHORITY.

((a) Additional Requirements . _

((1) In general . _Except as provided in paragraph (2), nothing in this Act shall be construed as prohibiting a State or political subdivision thereof from adopting or enforcing a requirement applicable to a tobacco product that is in addition to, or more stringent than, requirements established under this chapter.

((2) Preemption of certain state and local requirements . _

((A) Except as provided in subparagraph (B), no State or political subdivision of a State may establish or continue in effect with respect to a tobacco product any requirement which is different from, or in addition to, any requirement applicable under the provisions of this chapter relating to performance standards, premarket approval, adulteration, misbranding, registration, reporting, good manufacturing standards, or reduced risk products.

“(c) Waivers . Upon the application of a State or political subdivision thereof, the Secretary may, by regulation promulgated after notice and an opportunity for an oral hearing, exempt from subsection (a), under such conditions as may be prescribed in such regulation, a requirement of such State or political subdivision applicable to a tobacco product if_

“(1) the requirement is more stringent than a requirement applicable under the provisions described in subsection (a)(3) which would be applicable to the tobacco product if an exemption were not in effect under this subsection; or

“(2) the requirement_

“(A) is required by compelling local conditions; and

“(B) compliance with the requirement would not cause the tobacco product to be in violation of any applicable requirement of this chapter.

“SEC. 915. TOBACCO PRODUCTS SCIENTIFIC ADVISORY COMMITTEE.

the tobacco product involved; and

“(4) on its review of other safety, dependence, or health issues relating to tobacco products as requested by the Secretary.

“(d) Compensation; Support; FACA.

“(1) Compensation and travel. Members of the Advisory Committee who are not officers or employees of the United States, while attending conferences or meetings of the committee or otherwise engaged in its business, shall be entitled to receive compensation at rates to be fixed by the Secretary, which may not exceed the daily equivalent of the rate in effect for level 4 of the Senior Executive Schedule under section 5382 of title 5, United States Code, for each day (including travel time) they are so engaged; and while so serving away from their homes or regular places of business each member may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

(2) Contribution or reimbursement liability._ A tobacco product manufacturer shall be liable under this subsection to one or more other manufacturers if the plaintiff tobacco product manufacturer establishes by a preponderance of the evidence that the defendant tobacco product manufacturer, through its acts or omissions, was responsible for a disproportionate share of the non-attainment penalty as compared to the responsibility of the plaintiff manufacturer, as contemplated in subsection (c)(3).

(3) Responsibility for agents, etc._ In any action brought under this subsection, a tobacco product manufacturer shall be held responsible for any act or omission of its attorneys, advertising agencies, or other agents that contributed to that manufacturer's responsibility for the penalty assessed under this section.

(a) Action by Secretary._

(1) In general._ If the Secretary determines that the non-attainment percentage for any year is greater than 20 percentage points for cigarettes or smokeless tobacco, then the Secretary shall determine, on a brand-by-brand basis, using data that reflects a 1999 baseline, which tobacco product manufacturers are responsible within the 2 categories of tobacco products for the excess. The Secretary may commence an action under this section against the tobacco product manufacturer or manufacturers of the brand or brands of cigarettes or smokeless tobacco products for which the non-attainment percentage exceeded 20 percentage points.

(2) Determination._ The Secretary shall use research methodology that is similar to, or the same as, that used in the University of Michigan Survey, except_

(A) the methodology shall be adapted to determining underage usage by brand; and

(B) the base period shall be calendar year 1999.

(b) Procedures._ Any action under this section shall be commenced by the Secretary in the United States District Court for the District of Columbia within 90 days after publication in the Federal Register of the determination that the non-attainment percentage for the tobacco product in question is greater than 20 percentage points. Any such action shall be heard and determined by

a 3-judge court under section 2284 of title 28, United States Code.

(c) Determination by Court._ In any action under this section, the court shall determine whether the preponderance of the evidence shows that a tobacco product manufacturer_

(1) has failed to comply substantially with the provisions of this Act regarding underage tobacco use, of any rules or regulations promulgated thereunder, or of any Federal or State laws regarding underage tobacco use;

(2) has taken any material action to undermine the achievement of the required percentage reduction for the tobacco product in question; or

(3) has failed to comply with all recommendations of the Tobacco Agreement Accountability Panel established under section 801.

(d) Removal of Annual Aggregate Payment Limitation._ Except as provided in subsections (e) and (g), if the court determines that the preponderance of the evidence shows that a tobacco product manufacturer engaged in conduct described in subsection (c) then section 706(c) of this Act does not apply to the enforcement against, or the payment by, such tobacco product manufacturer of any judgment or settlement that becomes final after that determination is made. The liability apportionment agreement described in section 706(e) of this Act shall not require that other tobacco product manufacturers pay an increased amount in any year over the amount they would have had to pay but for this section.

(e) Defense._ An action under this section shall be dismissed, and subsection (d) shall not apply, if the court finds that the Secretary's determination under subsection (a) was unlawful under subparagraph (A), (B), (C), or (D) of section 706(2) of title 5, United States Code. Any judgments paid under section 706(c) of this Act and section (1)(d)(3) of the Protocol prior to a final judgment determining that the Secretary's determination was erroneous shall be fully credited, with interest, under section 707(e) of this Act and section (1)(d)(3) of the Protocol.

(f) Review._ Decisions of the court under this section are reviewable only by the Supreme Court by writ of certiorari granted upon the petition of any party. The applicability of subsection (d) shall be stayed during the pendency of any such petition or review.

(g) Continuing Effect._ Subsection (d) shall cease to apply to a tobacco product manufacturer found to have engaged in conduct described in subsection (c) upon the later of_

(1) a determination by the Secretary under section 201 after the commencement of action under subsection (a) that the non-attainment percentage for the tobacco product in question is 20 or fewer percentage points; or

(2) a finding by the court in an action filed against the Secretary by the manufacturer, not earlier than 2 years after the determination described in subsection (c) becomes final, that the preponderance of the evidence shows that, in the period since that determination, the manufacturer_

(A) has complied with the provisions of this Act regarding underage tobacco use, of any rules or regulations promulgated thereunder, and of any other applicable Federal, State, or local laws, rules, or regulations;

(B) has not taken any action to undermine the achievement of the required percentage reduction for the tobacco product in question; and

(C) has pursued substantial additional measures reasonably calculated to attain the required percentage reduction for the tobacco product in question.

A judgment or settlement against the tobacco product manufacturer that becomes final after a determination or finding described in paragraph (1) or (2) of this subsection is not subject to subsection (d). An action under paragraph (2) of this subsection shall be commenced in the United States District Court for the District of Columbia, and shall be heard and determined by a 3-judge court under section 2284 of title 28, United States Code. A decision by the court under paragraph (2) of this subsection is reviewable only by the Supreme Court by writ of certiorari granted upon the petition of any party, and the decision shall be stayed during the pendency of the petition or review. A determination or finding described in paragraph (1) or (2) of this subsection does not limit the Secretary's authority to bring a subsequent action under this section against any tobacco product manufacturer or the applicability of subsection (d) with respect to any such subsequent action.

(h) Definitions._ The definitions set forth in section 701 of this Act apply to terms used in this section. A judgment or settlement becomes final within the meaning of this section when it would qualify as a final judgment or final settlement under section 701.

(c) Castano Civil Actions._

(1) The rights and benefits afforded in section 221 of this Act, and the various research activities envisioned by this Act, are provided in settlement of, and shall constitute the exclusive remedy for the purpose of determining civil liability as to those claims asserted in the Castano Civil Actions, and all bases for any such claim under the laws of any State are preempted (including State substantive, procedural, remedial, and evidentiary provisions) and settled. This Federal cause of action shall be the exclusive means for the purpose of determining civil liability on any such tobacco claim in any civil action to which this title applies, and all other bases for tobacco claims under State, Tribal, and local law are hereby preempted. District courts of the United States and tribal courts shall have concurrent jurisdiction with the courts of the States over any tobacco claim in any civil action under this section.

(b) Permissible Defendants._ In any civil action to which this subtitle applies, tobacco claims may be filed or maintained only against_

(1) a tobacco product manufacturer; or

(2) a surviving entity established by a tobacco product manufacturer.

(c) Addiction and Dependence Claims Barred._ In any civil action to which this title applies, no addiction claim or dependence claim may be filed or maintained.

(d) Requirements._ The following requirements apply to civil actions to which this title applies:

Any such document submitted to the court shall be considered authenticated with the same legal status as the original.

(e) Liability._ The following provisions regarding liability shall apply in civil actions to which this title applies:

(1) A tobacco product manufacturer shall be liable for any act or omission of its attorneys, advertising agencies, and agents undertaken in the representation of such tobacco product manufacturer.

(2) A tobacco product manufacturer shall be liable in connection with any tobacco claim for the liability, if any, of any of its affiliates arising from tobacco products sold directly by such affiliate in the United States or to an importer for resale in the United States, unless such affiliate is a participating tobacco product manufacturer or a non-participating tobacco product manufacturer.

(3) Participating tobacco product manufacturers shall not be jointly and severally liable on a tobacco claim with non-participating tobacco product manufacturers. Nothing in this title prevents a participating tobacco product manufacturer from being held jointly and severally liable with any other person other than a non-participating tobacco product manufacturer if such liability exists under the applicable substantive rules of decision as determined under subsection (a), except that any such imposition of joint and several liability against a participating tobacco product manufacturer shall be subject to the provisions of section 706.

If such severance results in a tobacco claim being submitted to more than 1 jury or to the same jury for separate deliberation the participating tobacco product manufacturer may not assert any claim that would prejudice the dollar amount to be recovered by the holder of the tobacco claim from the participating tobacco product manufacturer due to the severance of the action including satisfaction by way of jury

verdict against the non-participating tobacco product manufacturer. In any action brought against a participating tobacco manufacturer and a person that is not a tobacco product manufacturer, the court may sever the trial so that all claims against such person may be tried separately.

(5) In any civil action brought involving a tobacco claim, there shall be a presumption that nicotine is addictive and that the diseases identified as being caused by use of tobacco products in the Center for Disease Control and Prevention Reducing the Health Consequences of Smoking: 25 Years of Progress: A Report of the Surgeon General (United States Public Health Service 1989), The Health Consequences of Smoking: Involuntary Smoking, (USPHS 1986); and The Health Consequences of Using Smokeless Tobacco, (USPHS 1986), are caused in whole or in part by the use of tobacco products, (referred to elsewhere in this paragraph as the "general causation presumption"), and a jury empaneled to hear a tobacco claim shall be so instructed. In all other respects, the burden of proof as to the issue of whether a plaintiff's specific disease or injury was caused by smoking shall be governed by the law of the State or Tribe in which the tobacco claim was brought. The general causation presumption shall in no way affect the ability of the defendant to introduce evidence or argument which the defendant would otherwise be entitled to present under the law of the State or Tribe in which the tobacco claim was brought to rebut the general causation presumption, or with respect to general causation, specific causation, or alternative causation, or to introduce any other evidence or argument which the defendant would otherwise be entitled to make.

(f) Preservation of Insurance Claims._

(1) In general._ If all participating tobacco product manufacturers fail to make the payments required by this Act for any calendar year, then_

(3) State law not affected._ Nothing in this subsection shall be construed to expand or abridge

State law.

in which the State court proceeding is pending.

(e) Joint and Several Liability._ All participating tobacco product manufacturers shall be jointly and severally liable for, and shall enter into an agreement to apportion among them, any amounts payable under judgments and settlements governed by this section arising in whole or in part from conduct occurring prior to the date of enactment of this Act. No participating tobacco product manufacturer shall cease operations without establishing a surviving entity against which a tobacco claim may be brought. Any obligation or interest of a participating, tobacco product manufacturer arising under such liability apportionment agreement shall be given priority and shall not be rejected, avoided, or discharged in a proceeding, under title 11, United States Code, or in any liquidation, reorganization, receivership, or other insolvency proceeding under State law.

Upon receipt of such a complaint, the Secretary shall notify the person named in the complaint of its filing.

(2)(A) Upon receipt of a complaint under paragraph (1) of this subsection, the Secretary shall conduct an investigation of the violation alleged in the complaint. Within 30 days after the receipt of such complaint, the Secretary shall complete such investigation and shall notify in writing the complainant (and any such person acting in his or her behalf) and the person alleged to have committed such violation of the results of the investigation conducted under this paragraph. An order of the Secretary shall be made on the record after notice and the opportunity for a hearing in accordance with sections 554 and 556 of title 5, United States Code. Upon the conclusion of such a hearing and the issuance of a recommended decision that the complaint has merit, the Secretary shall issue a preliminary order providing the relief prescribed in subparagraph (B) of this paragraph, but may not order compensatory damages pending a final order. The appropriate United States district court shall have jurisdiction to enforce such order, without regard to the amount in controversy or the citizenship of the parties.

(2) The court, in issuing any final order under this subsection, may award costs of litigation (including reasonable attorneys' and expert witness fees) to any party whenever the court determines such award is appropriate.

(f) Enforcement._ Any non-discretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28, United States Code.

(g) Applicability to Certain Employees._ Subsection (a) of this section shall not apply with respect to any employee who, acting without direction from the manufacturer (or the agent of the manufacturer) deliberately causes a violation of any requirement of this Act, the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq), or any other law or regulation relating to tobacco products.

All such determinations shall be made solely on consideration of the subject document and written submissions from the person claiming that the document is privileged or protected by trade secrecy and from any person seeking disclosure of the document. The Board shall cause notice of the petition and the Board's decision to be published in the Federal Register.

(b) Final Decision._ The Board may uphold a claim of privilege or protection in its entirety or, in its sole discretion, it may redact that portion of a document that it determines is protected from public disclosure under subsection (a). reasonable grounds for the failure to adduce such evidence or arguments in the proceedings before the Board, the court may order the Board to provide additional opportunity for the presentation of evidence or arguments in such manner and upon such terms as the court deems proper. The Board may modify its findings or make new findings by reason of the additional evidence or arguments and shall file with the court such modified or new findings, and its recommendation, if any, for the modification or setting aside of the decision being reviewed.

(c) Standard of Review; Finality of Judgments._ The Board's findings of fact, if supported by substantial evidence on the record taken as a whole, shall be conclusive. No Federal, Tribal, or State court shall have jurisdiction to review a claim of attorney-client privilege, attorney work product, or trade secret protection for a document that has lawfully been made available to the public under this subsection.

(e) Effect of Non-disclosure Decision on Judicial Proceedings._ The Board's decision that a document is protected by attorney-client privilege, attorney work product, or trade secret protection is binding only for the purpose of protecting the document from disclosure by the Depository. The decision by the Board shall not be construed to prevent a document from being disclosed in a judicial proceeding.

(f) Disclosure to the Food and Drug Administration._ Within 240 days after the date of enactment of this Act, each participating tobacco product manufacturer shall submit to the Food and Drug Administration the documents identified in section 903(b) or 903(c), including documents for which trade secret protection is claimed, with the exception of any document for which privilege is claimed, and identified in accordance with section 904(a). Each such manufacturer shall provide the Administration with the privilege and trade secret logs identified under section 904(b). With respect to documents that are claimed to contain trade secret material, unless and until it is finally determined under this title, either through judicial review or because time for judicial review has expired, that such a document does not constitute or contain trade secret material, the Administration shall treat the document as a trade secret in accordance with section 708 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 379) and the regulations promulgated thereunder. Nothing herein shall limit the authority of the Administration to obtain and use, in accordance with any provision of the Federal Food, Drug, and Cosmetic Act and the regulations promulgated thereunder, any document constituting or containing trade secret material. Documents and materials received by the Administration under this provision shall not be obtainable by or releasable to the public through section 552 of title 5, United States Code, or any other provision of law, and the only recourse to obtain these documents shall be through the Board and Depository.

If the Board determines that a participating tobacco product manufacturer has not acted in good faith with full knowledge of the truth of the facts asserted and with a reasonable basis under existing law, the manufacturer shall be assessed costs, which shall include the full administrative costs of handling the claim of privilege, and all attorneys' fees incurred by the Board and any party contesting the privilege. The Board may also impose civil penalties of up to \$10,000 per violation if it determines that the manufacturer acted in bad faith in asserting a privilege, or knowingly acted with the intent to delay, frustrate, defraud, or obstruct the Board's determination of privilege or trade secret protection claims.

SEC. 1132. AMERICAN CENTER ON GLOBAL HEALTH AND TOBACCO.

(a) Findings and Purpose . _

(1) Findings . _Congress makes the following findings:

(A) Tobacco use is estimated to have caused nearly 3,000,000 deaths a year worldwide in the early 1990's, and is projected to cause in excess of 10,000,000 additional deaths a year globally by 2030, more than any single disease. More than 70 percent of those deaths are expected in developing countries.

(B) Many countries are unprepared to address increases in tobacco deaths, including the impact on health systems and health costs. While tobacco consumption in the United States and other established market economies has fallen over the last decade, consumption is rising in China, India, East Asia, and former socialist economies. Tobacco companies in the United States and elsewhere have increasingly targeted those markets.

(C) Tobacco use markedly reduces good health and threatens to erode the major health gains in life expectancy of the last century. Only HIV/AIDS infection and tobacco are large and growing causes of death and disease worldwide. The total projected deaths from tobacco over the next 10 years likely will exceed deaths from HIV/AIDS, maternal and childhood conditions, and tuberculosis combined.

(D) The United States consistently has provided leadership and funding to address the world's most pressing public health needs, including HIV/AIDS, hunger, maternal and child health, and immunization.

(E) Through exports and overseas operations, United States tobacco companies sell more cigarettes overseas than they do in the United States. Foreign sales now account for more than half of all sales for the 2 leading United States tobacco product manufacturers.

(F) United States companies spend billions of dollars on aggressive tobacco marketing campaigns overseas that associate smoking with the United States, affluence, freedom, and liberation. In many markets, American companies reach youthful audiences through television and radio advertising, free samples, and other methods that are outlawed in the United States.

(G) In light of the role the United States tobacco companies have played in spreading tobacco use globally, and in light of the large financial benefits they continue to enjoy from tobacco

exports, it is appropriate that this section be enacted in order to provide assistance and funding for international public education and mass media programs to inform the public about the hazards of tobacco use.

(H) Smoking in United States films is pervasive and influences persons in other countries who seek to emulate ``American activities" depicted in motion pictures. According to one study, more than half of the top-grossing United States films released between 1991 and 1996 exhibited smoking. In these films, 80 percent of the male lead characters and 27 percent of the female characters smoked. The motion picture industry is painting a distorted picture that smoking is a truly American activity.
